FOSA WHO'S WHO 2008

Sixty years is but a short spell in the life of an institution. But if that institution happens to be Farook College, these six decades get filled with nostalgia like nowhere else. The Farook College Old Students' Association is a forum that seeks to perpetuate this sense of belonging among its alumni.

A confluence of generations, Farook College has among its old students persons who have enriched life on the planet in various capacities. There are men and women, professionals, academicians, businessmen, artists, scientists, diplomats, civil servants and others. They have spread everywhere on the globe, from Japan to America, from Mollywood to IAEA. FOSA has tried to keep track of old students. It has brought out directories (Old Students' Who's Who) twice before: one in connection with the Silver Jubilee, and the other on the occasion of the Fortieth Anniversary. The present one, coming out in the context of the Diamond Jubilee, is the most comprehensive to date.

However, in terms of the sheer number of students who have come out of the portals of this College, even this is too little indeed, minuscule. For an institution that has turned out more than a lakh students a two-thousand strong volume is but a paltry register. Nevertheless, even this has taken too long and too hard efforts to materialise. We are only too conscious that out there in the wide world there are many, many more who would have wished to get into this volume. They could not because they did not get the information in time, or because they could not provide the information in time. Either way, it is the limitations of time and space that have stood in the way of a more perfect directory. As it is, we have tried our best to get in touch with as many as possible. We would like to thank all those who have struggled to produce a Who's Who worthy of a sixty-year old Farook College.

Certainly we have tried to make this directory as flawless, attractive and user-friendly as we possibly could. For all these efforts, shortcomings and slips may have crept in. We request you to bear with us perhaps even our best has not been good enough, considering the sheer volume of the task.

Here it is, the FOSA Who's Who 2008. Packaged with our heartiest regards.

FAROOK COLLEGE OLD STUDENTS' ASSOCIATION

FAROOK COLLEGE OLD STUDENTS' ASSOCIATION

FOSA is the product of a sacred sentiment a keen desire on the part of the *alumni* to keep alive relationship with the College. It is a loud declaration of a bond, an attempt to keep in touch. The *alumni* of any institution naturally forms an instinctive bond with their *alma mater*. This is particularly so in the case of Farook College, which has always inspired among its students a sense of belonging that binds them together. FOSA is the formal acknowledgement of this bond.

The idea of an association of old boys to foster and perpetuate friendship and cooperation and keep alive the spirit of loyalty to the *alma mater* was formally mooted after two decades of the establishment of the College. Accordingly, a meeting was held in the College Auditorium on 12 July 1971. Prof U Mohammed presided. A

Steering Committee consisting of 14 members was formed. Mr M A Fareed and Mr K Mohammed Hassan were elected Convener and Joint Convener respectively. The name of the organization was Farook College Alumni Association, which was later changed to Farook College Old Students' Association.

The first General Body meeting of the old students of Farook College was held on 12 September 1971. Prof K A Jaleel inaugurated the meeting. Advocate M Moideenkutty Hajee MLA was in the chair. Mr Moosa A Baker presented the draft Constitution, which was adopted with amendments. The Farook College Alumni Association was thus formed. The Executive Committee consisted of the following:

FOSA is keen on organising programmes to provide information and guidance to the present generation. In addition to the annual get-together, it conducts seminars and lectures on topic of social relevance.

The strength and support offered by our students abroad gives us confidence to march ahead and introduce new schemes under FOSA's banner. FOSA at present has six active units in Dubai, Qatar, Kuwait, Damam, Alkhobar, Jeddah and North America. An Old Students' Home to house extension counter and cooperative store are constructed by the financial support of Dubai unit. Abussabah

The herald of dawn

Thinker, scholar, educationist and social reformer, Moulana Abussabah Ahmedali was born in Venmenat, near Chavakkad, in 1906. After early education in India he proceeded to Egypt at the age of 18. He pursued his studies at ancient Al Azhar University, Cairo. He developed contact with eminent personages and great scholars.

After a brilliant educational career at Al Azhar, the Moulana returned to India via Palestine and Iraq in 1935. He toured many parts of the country, met distinguished men in various walks and parts of India, and experimented with his own ideas in the fields of education and economics.

In 1941, Abussabah reached Anakkayam near Malappuram, and with help from a few friends, established the Rouzathul Uloom Arabic College in 1942. In 1944 this College was shifted to Manjeri, and then in 1946 to Feroke, with the idea of further expansion and development. Here he took the initiated steps for the establishment of a First Grade College, for the benefit particularly of the educationally backward Mappila community. From this moment till his death in 1971 the Moulana was the Light of the Campus, the moving spirit and patron of Farook College Campus institutions.

Abussabah served as President of Rouzathul Uloom Association (1946-71), Member of Farook College Managing Committee (1948-71), and Principal of Rouzathul Uloom Arabic College (1942-71). His dauntless perseverance, sincerity and dedication steered the institutions through the throes of infancy. His courage and confidence were inspiring and catching. Above all, looking back, one sees how great a visionary he was. With his vision and commitment he transformed the destiny of this part of India.

I am inspired by the name of this college, associated with Hazrat Omar Farook, an embodiment of justice. Khalif Omar Farook and his servant had to go to a place to negotiate a treaty. They had only one camel. Omar decided they should ride the camel by turns. When they were about to reach the destination, it was the servant's turn. He turned to his master and said, as it was the end of the journey and they were to meet the officials he should continue to ride. Omar refused to have an unequal advantage and insisted on the servant enjoying his turn. This shows Omar's sense of justice and the Islamic spirit of equality.

Maulana Abhussabah Ahamedali Memorial Extension Lectures

A Confluence Of Eastern Wisdom

Dr B SHAIK ALI
Vice Chancellor, Mangalore University(25.1.81)

The evolution of Islam in India falls into three phases. The first of these begins with the advent of the Arabs and the Turks, with Mahmud of Ghazni and Ghori. This phase is the period of exclusiveness, conquest and consolidation, of iconoclasm and estrangement the aloofness of a new comer in a train who first fights shy of talking to his companions. The second phase is one of reconciliation compromise, adjustments and adaptability. India, with its characteristic policy of live and let live, had earlier welcomed the Greeks, the Huns, Shakayats, Aryans, Turks etc; India had kept its doors open for the Muslims as well, and they now reciprocated this friendliness. This is the

period of Sufi presentation of Islam, which gained much strength and won India's heart. It was the Sufis and not the monarchs who were responsible for Islam gaining acclaim and acceptance. The advent of the British marked the beginning of the last phase. This was a period of decay when Islam was under a cloud, divested of political authority.

The impact of Muslim rule on the politics of India was profound. The first effect was the consolidation of political authority.

Politically pre-Muslim India was feudally particularistic. Each small tribe cherished its autonomy, and very grudgingly acknowledged the suzerainty of the Emperor. Muslim dominance tended to break up the far too many units of independent power, and to suppress the series of

lords and chieftains who interposed between the central government and the individuals. Thus Muslims helped to create a political uniformity and a sense of larger unity and solidarity.

The second great political effect of Muslim rule was the prevention of India from undergoing the same fate as befell Central Europe under the Huns and Baghdad under the hordes of the Mongols, Halagu and Chenghiz. This great service has not been given the attention it deserves; indeed, it has been hardly acknowledged. The Mongols again and again knocked at the gates of India, and but for the stiff, effective, bold and successful resistance under able Sultans like Balban and Allauddin, India would have suffered a miserable fate. It was Allauddin who first conceived the idea of a

standing army. He was prepared to have the Mangols if they forced themselves into India. Even if the Muslims had not made any other contribution, this one service of saving India from the Mangol hordes should have fetched them an honoured place in history. Thirdly Allauddin was an experimentalist in administration.

The Mughals effected further reforms they secularized the state further and adopted a political policy which was not at all religious. Akbar married a Rajput princess, and laid the foundation of lasting alliance with the Rajputs. This policy had far reaching results; first, it attracted a powerful section to the new empire. Secondly it mitigated the foreign character of Muslim rule. Thirdly it established a national monarchy which the Hindus did not consider as a great burden.

Through The Looking Glass

SYED HAMID

Vice chancellor AMU Aligarh (8-11-82)

As Indian Muslims we share many problems with other Indian communities. Some of them are, of course, poverty, educational backwardness, lack of hygiene, under-nourishment, lack of awareness, Unemployment, population explosion, indiscipline and insecurity. Some of these, however occur among us in a more accentuated and aggravated form. The sense of insecurity has been more acute among the Muslims. It is certainly very accentuated in the North where unfortunately even 35 years after Independence communal tension and communal riots often take place.

But there are other problems which are peculiar to us and those problems I might mention are inherent in the situation. Sometimes Muslims are

subjected to unmerited suspicion and there is a reaction to that. It creates a sort of complex that they are being suspected. This is not a new thing; it was very much there earlier also. This is in fact most unfair. Now they are also unrepresented in the policy-making echelons. They do not have any effective say on policy

enforcement and administrative levels.

The Indian Muslims are as patriotic and as loyal to the country as any others. There is nobody who can sit in judgement on their loyalty and their patriotism. They form a part of this country and they are dedicated to this country and there is no reason for anybody to take a superior position and subject Muslim loyalty to a scrutiny.

Another malaise we suffer from is lack of leadership.

Another trend for which we have unfortunately distinguished ourselves is disunity. We observe the

fact that the main reason why Muslims are not making any progress is that they have lost the capacity of establishing proper institutions and running them.

Another trait is our incapacity to put in hard work. We are not putting in the amount of work that we ought to put in. Genius has been defined as 10% inspiration and 90% perspiration. It is perspiration that we are unable to bring on to the tasks that we undertake. It is hard, hard work, persevering hard work, uninterrupted hard work that is needed for lifting an individual.

In The Backseat Of History

Dr. V.A. Seyid Muhammad
Indian High commissioner in UK
(05-12-1983)

The disintegration of the Mugal rule was accompanied all over India by the erosion and decline of Muslim rule. The Battle of Plassey, the defeat of Tippoo Sulthan, the debacle of the Rohillas and Indian Independence Revolt of 1857 which was mainly centred in the Province of Oudh, (the Muslims of India looking forward for a lead to the King of Delhi, Bahadur shah II, the last of the Mughals) constituted a series of stunning disasters and formed part of an ever deteriorating process. These fatal blows were delivered mainly by the British.

At this stage it was therefore natural that the Muslims in India looked upon the British as their chief and mortal enemy and the root cause of their fall and decline. For some time outside India also a similar decline of Muslim power had been going on which became very acute and contemporaneously with the happenings in India the Muslim power and influence reached the nadir. In Spain the decay began by the beginning of the 12th century culminating in the almost total elimination of the Saracen rule and their dominance in that country. It spread over as a creeping and debilitating disease to the East affecting Egypt, Mesopotamia and Persia, and reaching Afghanistan and the North West Frontier of India. Turkey became the "Sick Man

of Europe". The West was reestablishing during this period its supremacy in these regions annihilating the Muslim rule established for centuries.

It was a natural corollary to the partition of India that the Indian Muslims lost the senior and middle level personnel in administration, the armed forces, police and other branches of state and public life. The representation of Muslims in those branches and instrumentalities of state became scantier still. Wherever there were opportunities and openings available there were not sufficiently qualified hands among Muslims. Neglect of education was another misfortune of the Muslim community. Wherever openings were available casteism, regionalism and nepotism restricted further the opportunities for Muslims.

There is no redemption in being defeatist or over depressed. Understand the nature of the malady and find and apply the correct remedy. The remedy lies in educating ourselves and taking advantage of the various opportunities of industrial, commercial and economic activities. More than anything else the remedy lies in merging with the mainstream and underplaying the differences and underplaying the common interests and the hearty and full co-operation in the noble task of nation building. Make a common front with the secular and progressive forces in this country. Believe as an article of faith

that our progress can be achieved only as a part of the progress of the nation as a whole. We cannot create or expect pockets of isolation which can survive irrespective of the state of health of the nation. We have to find satisfactory solutions to our problems within the four walls of this country and in co-operation with the people of this country. Neither is it wise to continue the old habit of sectarianism attributing to a single source all our woes and misery and hunting for

scapegoats or alibis.

Let us have faith in God, the greatness of our country and our people, faith in brotherhood and faith in ourselves. Trust begets true love. This should be understood and appreciated by all concerned. Any single community or section of the people cannot form an oasis of prosperity in a desert of utter misery. It is not in the interest of the country to leave a section of people in poverty, misery, illiteracy and destitution.

മുത്തുചിപ്പി ജനിക്കുമ്പോൾ അതിന്റെ തോടിനു ഉള്ളിൽ ഇത്തിരി കഫത്തിന്റെ പശിമയും ഇത്തിരി ഇറച്ചിയും മാത്രമാണുള്ളത്. അതിന് മുത്തം ഉണ്ടാകാനുള്ള വിരുതില്ല. മുത്തിനുവേണ്ടി കൊതിക്കാനും, പ്രാർത്ഥിക്കാനും, കാത്തിരിക്കാനും ഒരിക്കൽ ദൈവകാര്യം പോലെ മുത്തം വരും. ആ നിമിഷം മുതൽ അത് വിലയുറതായി. ലോകം മുഴുവൻ കൊതിക്കുന്ന മുത്തം. ഉള്ളിൽ വളർന്ന മുത്തം പിന്നെ ചിപ്പിയെ ഉപേക്ഷിക്കുന്നില്ല. ദൈവാനുഗ്രഹവും അങ്ങനെതന്നെ. എപ്പോൾ വരുമെന്ന് ആരും അറിയുന്നില്ല. വരുമ്പോൾ അത് അന്തരാത്മാവിൽ പ്രകാശിക്കുന്ന മണിമുത്തായി തീരുന്നു. ദൈവം കൃതഘ്നനല്ല. അവനെ സ്നേഹിച്ചവൻ എന്നേക്കുമായി അവന്റേതാണ്. മുത്തം സ്നേഹമേകമാണ്. എന്നും ഒരേ നിറം ഒരേ മുഖ്യം. ദൈവകാര്യത്തിന്റെ മുത്തം അങ്ങനെയല്ല. കാലം കഴിയുന്നതോടും പ്രകാശം വർദ്ധിക്കുന്നു. സ്വന്തം അഹന്തയെ മഹത്വപ്പെടുത്തുന്ന പ്രഭാപുണ്യമല്ല അതിനുണ്ടാവുന്നത്. സർവേശ്വരനേയും ഈശ്വരസൃഷ്ടിയേയും ആകവേ അനുഗ്രഹീതമാക്കുന്നതാണ് ഭക്തന്റെ ആത്മാവിൽ വന്നു മുറ്റുന്ന മുത്തം. അവന്റെ മാർഗ്ഗത്തിൽ പല വാതായനങ്ങൾ കടന്നു പോകണം. വിശ്വാസത്തിന്റേത് ദൈവത്തിന്റെ പരിചിതമല്ലാത്ത സാർവ്വത്വപുണ്യങ്ങളായും, ആദരവ്, അനുസരണം, പ്രത്യേകം, പ്രേമം, തിതിക്ഷ, സഖിതം. ഇതിൽ അവസാനം പറഞ്ഞ പ്രേമം, തിതിക്ഷ, സഖിതം എന്നിവയെ ദുർബ്ബലം ചിത്രീകരിക്കുന്നത് സമ്മോഹനത്തിന്റേയും ദാരിദ്ര്യത്തിന്റേയും ഐക്യതയുടെയും സ്വഭാവമുള്ളതുപോലെയാണ്.....

NATION, STATE, CIVIL SOCIETY AND MINORITY

A REPORT ON SACHAR COMMITTEE FINDINGS

Moulavi Abussabah Ahammedali was visionary who was able to envisage the importance of education and he took several steps to initiate many activities for the upliftment of Muslims in this backward area of Kerala. He can be considered as a visionary because his efforts succeeded. The great visionaries like Moulavi Saheb belong to non-conformists.

The struggle against colonialism began 150 years ago. The idea of the democracy is the result of the freedom struggle movement. Democracy is the continuous process. Indian National Congress was a platform for the people to come together. It represented unity of the people and getting together of the people. Democracy is a holistic concept. Economic democracy, Political democracy cannot be separated. But democracy is now monopolized by a section of people.

Religious and caste sections, economic backward sections are the various strata of the society. Anyhow the rights of the people can not be left out. The Organic Theory advocates for the entire society for being progressive together. If some parts of the society do not grow it is to be understood that there is something wrong with the society. For instance, when the head of the human body only grows, if the hands or other parts do not grow, we would say that there will be imbalance in the human growth.

Sachar Committee report compels to consider identity, security and equity of Muslim minority in India. The enquiry was ordered by U.P.A. Government to find out the status of Muslims in the country. It was not the first enquiry to look into the conditions of the country. All the earlier enquiries found that the condition of Muslims was not rosy.

But the Sachar Committee is qualitatively different enquiry in two respects: 1) It is well established by abundant quantity of data and comprehensiveness. It conforms the findings of early reports with regard to socio economic and political conditions of Muslims. 2) It is a time bound road map to the future of Muslims. It also put forward a definite set of recommendation.

The Sachar Committee identifies the problems of Muslims under three heads. 1. The question of identity. 2) Security 3) equity. The Sachar Committee report does not anchor on equity alone. It highlights the economic opportunities to be provided to the Muslims. The problems of the Muslims are large and more than economic problems.

Minority is constructed during the colonial period by British rule. It is a still evolving one. The minority is not a homogenous group nor is majority homogenous. In democracy the place of minority should be preserved. In the contemporary history of India during 1947-50 constitutional provision to the minority assumed more importance. The minority was to have rightful place in social and cultural sectors.

British rule looked at Muslims as enemies as they won the empire from the Muslims. Really the Mughal emperor was not a Muslim ruler though they were Muslims. Muslims were hated by British though they provided some military services. Secularism in India was manifested in the act of reinstating Bahadur Sha Safar as the Mughal emperor by all the sections of people including Maratis who had opposed Muslims earlier. The British did not bring about any substantial changes for the improvement of the conditions of the Muslims. But nothing really happened.

Partition of India in 1947 was a landmark. People thought that partition will bring an end to the communalism, but it had really escalated communalism. Muslims became a disadvantaged community. The identity of

Indian Muslims came to a contest. Post partition period really deepened the miseries of Muslims. The attitude of State was said to the appeasement of Muslims. But they were really characterized as anti national in the political and social science. They were increasingly marginalized. This marginalization could be linked with the partition of the country.

The epithet 'anti national' character brought them as victims of POTA. POTA victims in Gujarat for instance are mainly Muslims. Majority of the POTA victims are petty shop owners and they are suspected as terrorists. There family had nothing to eat but for the help of NGO from Hyderabad, they would have suffered much.

The civil society has become communalized. Muslims in Gujarath have moved physically to the centers where they feel more secure. They have internally displaced. 3000 families are out their homes. State has done to reduce their difficulties. There is a question of security and equity part. The major part of the Sachar Committee report is equity. Muslims suffer development deficit. They were left out of development relatively. It has to be linked with poverty. The Muslim representation in all India Civil Services is only 3.2 percent. In Indian Parliament only 33 Members are Muslims out of 540 Members. But they are over represented in prisons just like blacks in American jails.

Sachar Committee recommends: 1) Inclusive development of Muslims by bringing them into mainstream. 2) 15 percent of total allocation should be earmarked for overall development of Muslims. 3) The constitution of equal opportunity committee.

These recommendations will have greater implications in the future of Muslims than at present. But the question of implementation of this report still remains. The plight of the Gopal Singh Committee and Viswanathan Committee reports should not happened with the Sachar Committee report.
