PRINCIPAL'S MESSAGE

Education is never complete unless it enhances personal growth and aids in societal development

We, at Farook College, have always strived to 'educate' our students in the true sense of the word. Students and staff are encouraged to explore the various dimensions of education so as to bring out the best in every individual while keeping alight the flame of social consciousness. **Campus Vibes** is only a humble record of the vibrant and noteworthy activities and achievements of our students and staff towards realizing this noble mission. Every effort is taken to ensure that our students walk ahead of their time by being equipped with state-of-the-art technology and advances in knowledge without compromising on our cultural values or environmental assets.

As part of **Vision 2020** we look forward to the implementation of more developmental and value-based programmes in the coming years: initiation of more interface programmes and tie-ups with eminent institutions, introduction of new bridge courses and result-oriented communication-enhancement programmes, continuous quality assessment measures and installation of fitness centers are some of the pilot projects. With concerted effort, the management, staff and students can be hopeful of the productive outcome of our vision and aspiration. "Coming together is a beginning. Keeping together is progress. Working together is success." **Campus Vibes** reflects the enterprise and dedication of the Farookians. With each successive publication, may its pages throb with a fresh surge of energy and life!
